A hasty dispersal of truckmen and their helpers was effected at the corner of Keith avenue and North Main street yesterday afternoon when a 350-pound safe, after slipping from its leashes, came hurtling down to the sidewalk from a second story window of the Worthen block. Men employed by F. G. Rogers, the heavy lifter, had lowered an old safe from the office of the Western Union and were about to replace it with a new one when the accident occurred. Mr. Rogers was using a new set of tackle and the new safe had been lifted to a level opposite the window of the Western Union office when something slipped and the safe fell. The boss truckman himself, was leaning out the window and had his hands caught for a moment between the safe and the door casing, a circumstance which resulted in two ugly cuts on either hand. Below, the helpers moved with such alacrity that no one was injured, but the safe struck the rear end of the truckman's wagon a glancing blow before landing on the sidewalk. Two wheels on the safe were broken and the rear axle of the truck wagon was fractured.
